ow thousand shares.
At the opening London was the principal buyer, but on a very moderate scale. For half an hour the market was dull and irregular. Then the rumors of an important naval victory became current, and at the close of business the advance in prices had been sufficient to convince nearly every one that the Spanish fleet had been effectively disposed of. The transactions in both stocks and bonds were above the average, and they were unusually well distributed. In the railway list St. Paul was most extensively dealt in at a net advance of 1 to 9 cent. The second place was held by Missouri Pacific, which was more extensively dealt in than for long time past at a net advance of 1% # cent. Other noteworthy net advances were those of 24 woont. in Sugar Refining, 14 in C., B. and Quincy, 5% in Metropolitan Street Railway, 1% in Northern Pacific preferred, 1% in Union Pacific preferred, 14 in Louisville and Nashville, 14 in Manhattan Railway, and a point in Atchison preferred. The only noteworthy net de-cline was that of a fraction in American Tobacco, the market for which was heavy throughout. Of the usually inactive stocks those that received most attention were Minnesota Iron, New York Air Brake, Illinois Central, Illinois Steel, Great Northern preferred, and Laclede

The market for these stocks was doubtless influenced to an extent by specific developments. In the case of Great Northern it is understood that the stockholders will shortly be given the privilege to subscribe for additional stock, the proceeds of the issue to be used to retire the collateral trust bonds of the company, an operation which will release a large amount of valuable assets. The improvement in the iron industry explains the advance in Illinois Steel and in Minuscota Iron stocks, Regarding New York Air Brake, it is stated that the recent decision sustaining the company's patents has brought it a number of additional contracts, the fulfilment of which will tax the capacity of its plant for the remainder of the year. The market for Laclede Gas securities is doubtless influenced by the fact that during the first four months of the present calendar year the net earnings of the company show an increase of nearly 16 9 cent. as compared with the corresponding period of last year. Should this ratio of increase be maintained the remainder of the year, the common stock. The closing was strong at about the best prices.

before the close there was a sharp rally in which July recovered freely, and it was reported that Leiter brokers bought. Leverpool checkined 10 to 2d., Paris fell year to be. and Aniverp was sasier. The clearances from the seaboard were 041,600 bush. Corn declined parily in sympathy with wheat and parily owing to clear and warm weather in the corn bels, while a depressing effect. There was a decrease in the available supply, according to Bradstreet's, of £460,000 bush. but this fact had no effect. The clearances from the seaboard were 792,400 bush. Chicago received #00 cars and expects 800 to morrow. Onts were nominally lower with the rest of the list. The available supply decreased 672,000 bush. The seaboard clearances were 301,000 bush. Chicago received #00 cars and expects 800 to morrow. Onloago, May 24.

"Wheat was weak again to-day, with the general senor of the news very bearish. Liverpool was 3d. lower on July, and about the same on September, closing 1d. to 2d. lower. Faris and Antwerp were also lower, and capteris's made an increase of 5,000,000 in the world's visible. Crop reports from every direction were bearish. Horthwest receipts 558 cars. Clearances 370,000 bush, from the scaloard. The McCormick Harvester Company reported 500 reaping machines at work in the fields in Oklahoma Territory right now, and there will be four times that many this time near week. Atel Rey of Paris reports that the French harvest will be under way in the south of France by July 1 and as far north as the middle of the republic by July 10. So far, on this crop he has been wrong on everything he predicted. The sensiment here is bearish. The general belief is that prices for cash wheat are not thus with the continuance of avorable weather and prospects for an early harvest is will be difficult to establish any permanent advance. With 40,00,000 bush. Alone to Europe it seems hardly credible that, in the absence of manipulation, consumers abroad. Ripot corn at Liverpool was off 3d. and the futures 11,4d. to 3d. sile of 10,000 bales for October at 6.35c. occasioned more or less comment, but really had very little effect on the market. Wall street is understood to have been the source of this trading, which in a larger market would have attracted little or no attention, and, even as it was, it produced hardly more than a momentary ripple on the surface of the speculative current. Cotton has few aggressive friends at the moment, but it is believed to be not without its merits nevertheless. The experts are large, the crop outlook, though in some respects better. is, to say the lesst, mot degree better. It is to say the lesst, mot degree believes to the something in the persistent romors of a big victory by the American squadron within the last few days. More than one house believes, too, that such a victory, when confirmed, would be apt to send cotton prices upward on the ground that it would be likely to impart a fresh impetus to American trade generally and thus have a tendency toward an expansion of cotton speculation. But just at the moment the market is quiet and unsettled and is likely to remain so until something definite and decisive takes place to give quotations a positive have located in proved this west. Had two light, insufficient whowers. About 25 pcent, has fair stands, and 50 pcent, has poor stands. Farmers now reporting seed rotited in ground. Some are replanting in cotton, others in core. Acreage will be fully 7 to 12 pc cent. has poor stands will amount to probably 1b to 18 pcent, of acreage has good stands, about 25 pcent, has fair stands, and 50 pcent, has poor stands. Farmers now reporting seed rotited in ground. Some are replanting in cotton, others in core. Acreage will be fully 7 to 12 pc cent. has poor stands will amount to probably 1b to 18 pcent. of acreage will be fully 7 to 12 pc cent. less than last year, and with poor stands will amount to probably 1b to 18 pcent. Ground very dry, and good general rain needed badly. Cotton that is up looks stunted and sickly, end is fully ten days to two we
